**WASTE MANAGEMENT POLICY**

## **WASTE MANAGEMENT POLICY**

HiCET has an essential role in innovation and knowledge diffusion, acting as an agent of change in society. Moreover, they have a critical role in sustainable development because they prepare professionals not only for the market but also for society as citizens. HiCET use advantage of academic community to engage them and provide improvement through teaching, research and outreach to make the campus as a living laboratory to build culture of greenery environment sustainability. HiCET educates and follows 3Rs concept. (Reduce, Reuse, Recycle)

HICET aims at practicing the best waste management at the campus in catering the needs of building greenery society. HiCET will constantly thrive upon continuous improvement with utmost commitment in creating greenery environment on healthy waste management practices at campus.

### **POLICY FOR SOLID WASTE MANAGEMENT**

- Promote the use of e-circulars instead of traditional paper based notices.
- Wastewater from hostel and mess is recycled and ensured to reuse the treated water to full extent.
- Food waste collected from hostel and canteen are managed daily by third party vendor.
- Dustbins are placed in all the classrooms and garbage bins are placed in pedestrian pathway at equal distance of intervals to ensure the campus clean and green.

### **POLICY FOR PAPER WASTE MANAGEMENT**

- Paper wastes collected are recycled through third party vendor.

- Leave requests are made through e-campus management software.

#### **POLICY FOR PLASTIC WASTE MANAGEMENT**

No usage of single use plastic is followed in campus premises.

#### **POLICY FOR LIQUID WASTE MANAGEMENT**

- Improve the reuse of recycled and treated water consumed by HiCET hostel and mess.
- Rain water harvesting facility installed in all buildings of institution campus.

#### **POLICY FOR E-WASTE MANAGEMENT**

E-wastes and unused electronic devices are collected by third party vendor for recycle.

#### **POLICY FOR BIO-MEDICAL WASTE MANAGEMENT**

- Usage of Bio-Medical and hazardous materials are restricted in the campus.

#### **POLICY FOR HAZARDOUS CHEMICALS AND RADIOACTIVE MATERIALS MANAGEMENT**

- Usage of hazardous chemical and radioactive materials restricted in the campus.
- Laboratory chemicals are disposed to the environment with more dilution.
- Research on innovative technology in waste management are encouraged and supported through seed money.

**Periodic awareness seminars/programs relevant to following topics are supported.**

- E-Waste recycling
- Solid waste management
- Sewage Treatment
- Campaign for collection and segregation of garbage.
- Plastic free campus

**Outreach events on green environment needs to be supported with volunteers of**

- NSS
- NCC
- Any other clubs
