Name and Designation of Resource Person(s) : Dr. Matheswaran Alagu, Indian Patent Attorney, NIPAM IP Professional, Start-up Facilitator, Energy Audit & Solar PV Professional	
Outcome : The resource person discusses how the energy audit is a methodical approach to energy management. Finding solutions to cut operational costs or energy usage per unit of product output is the main goal of an energy audit. Preventive maintenance, quality control, and energy cost reduction are essential for production and utility activities. The Energy Audit would provide a good direction towards these programs. Such an audit program will assist in maintaining focus on fluctuations in energy costs, the availability and dependability of the energy supply, selecting the right energy mix, identifying energy-saving technology, and retrofitting for energy efficiency.
