INSPIRING ICONS OF SCIENCE

NIKOLA TESLA

Nikola Tesla was born in South of Serbia. His interest in electricity may have begun with his mother, who dabbled in invention of small appliances while a boy. Tesla attended several schools then began working for a telephone in Budapest. At this time, he sketched a concept for an induction motor, but couldn't get anyone to support his idea. Tesla came to the United States in 1884 and he began working with Thomas Edison on some of Edison's inventions. After short time, however, the two sides found that they had conflicting ideas and could not work together. Tesla flourished for a few years but then

Artificial Intelligence (AI)

Artificial intelligence is the simulation of human intelligence processes by machines, especially computer systems. Specific applications of AI include expert systems, natural language processing, speech recognition and machine vision.

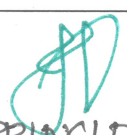

How does AI work?

As the hype around AI has accelerated, vendors have been scrambling to promote how their products and services use AI. Often, what they refer to as AI is simply one
